Software installation

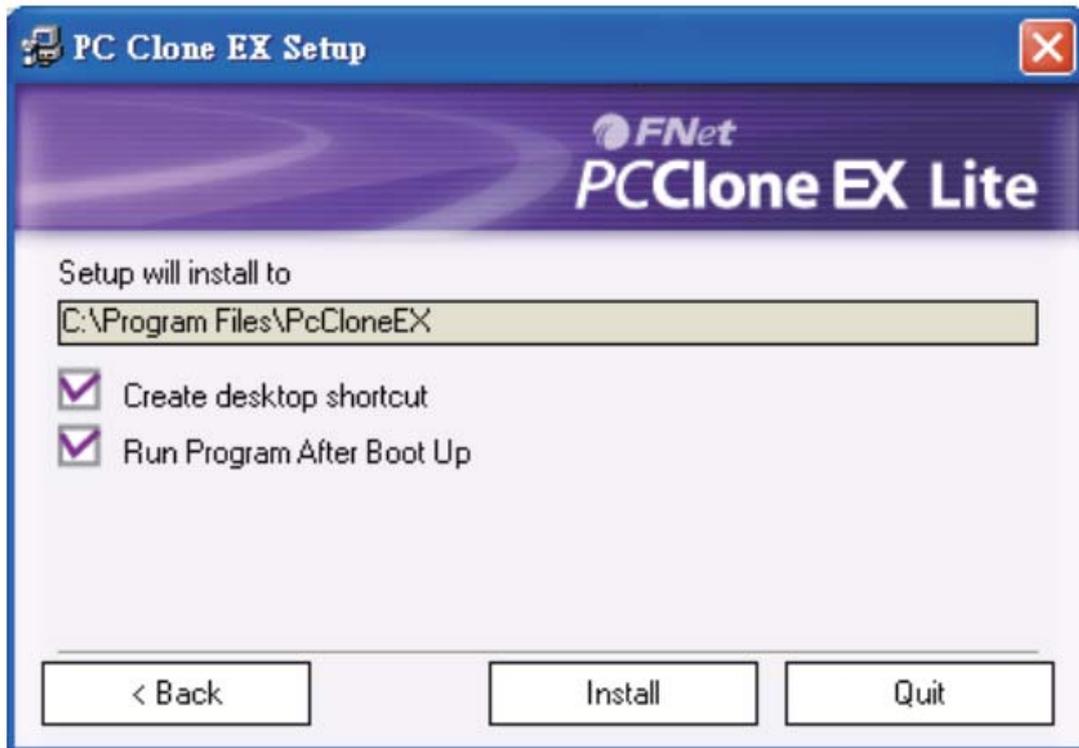

1. Please put PCClone EX Lite CD into CD ROM drive, the program directly goes on the screen of PCClone Setup Wizard. (In case the screen doesn't come out, please operate the window box of "setup.exe")
2. Click "install".

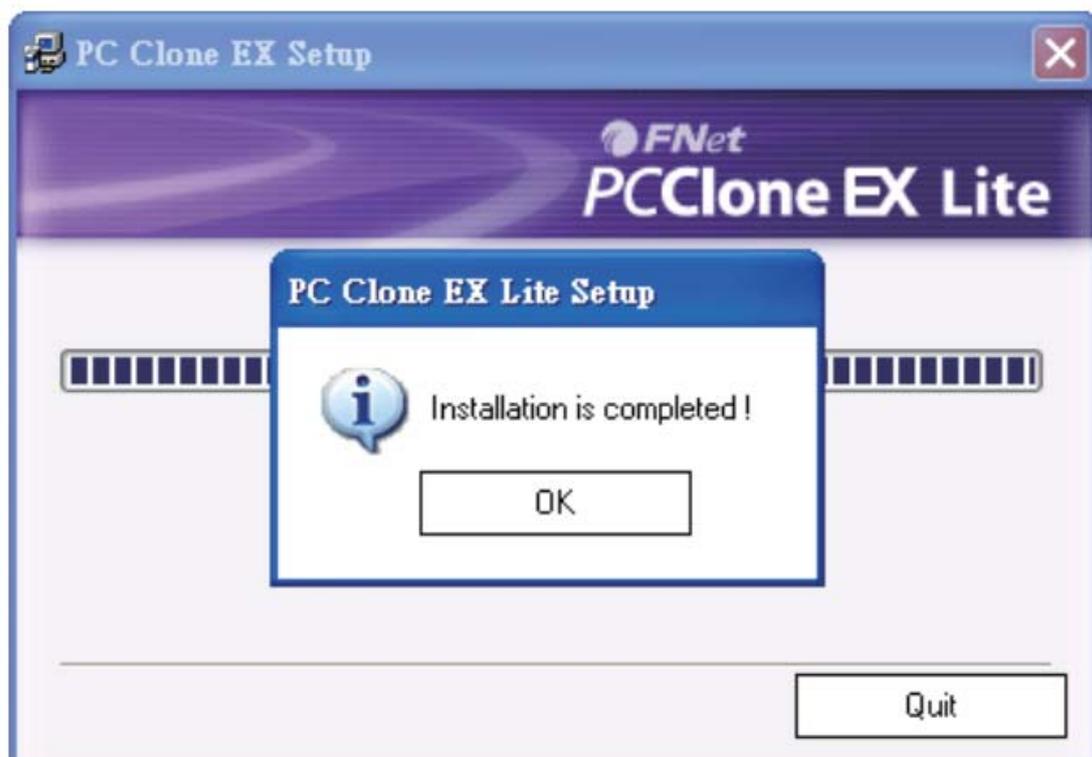

3. Please read the license agreement in detail
4. If users accept the agreement, please click "Next" to install

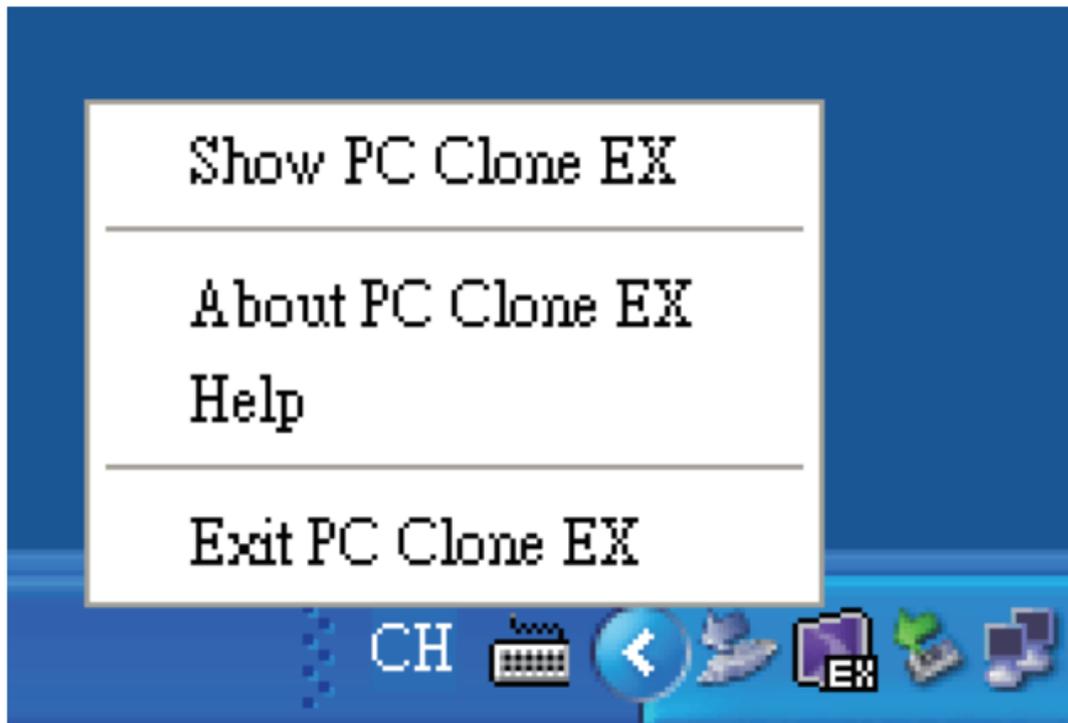

5. Click "Install" to next

6. The installation is completed, please click "OK" to exit.

7. "PCClone EX" icon will display in the notification area after setup; users can double-click the icon or press the right key of the mouse to execute PCClone EX Lite.

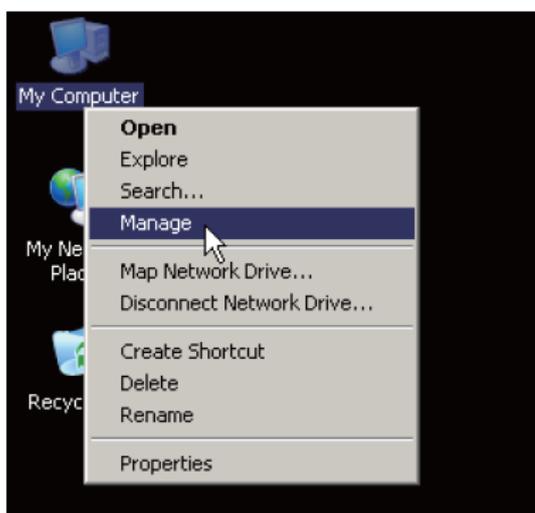

Create Partition

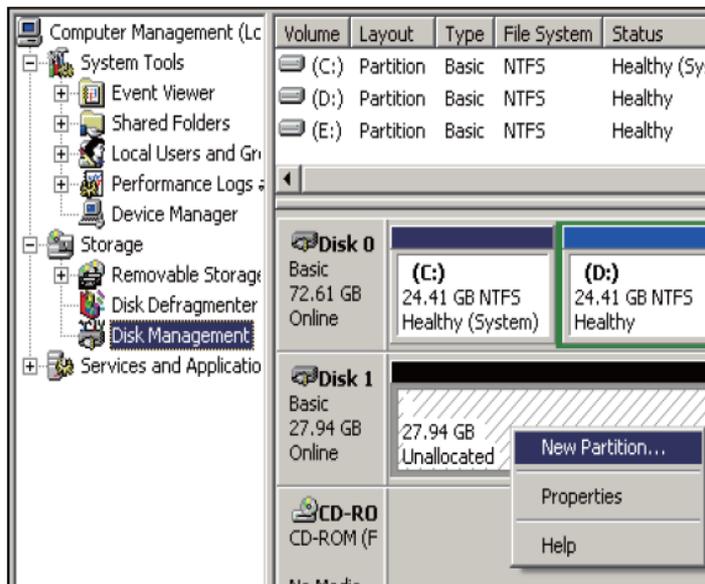

If your USB HDD has managed already, please skip this part and move on next context.

Steps

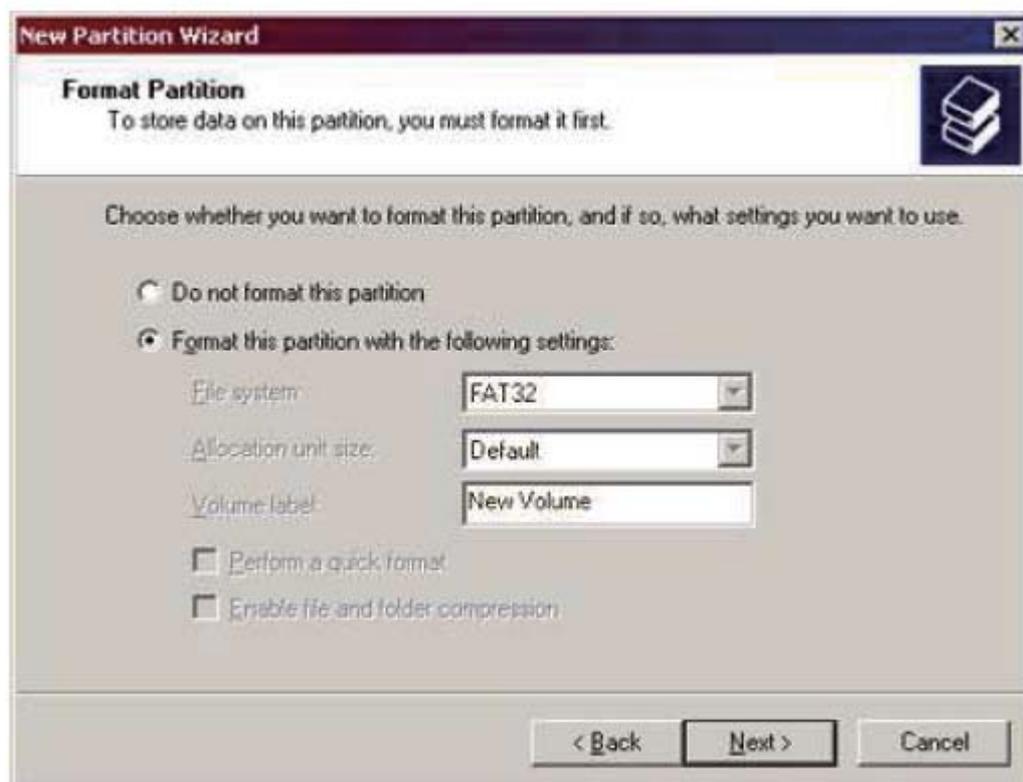

1. Please plug USB HDD. (Turn on the USB power)
2. Please right click "My computer", and point "Manage". (If also can click in succession as "Start" → "Control Panel" → "Administrative Tools" → "Computer Management" (If your USB HDD has managed already, please skip this part and move on next context))

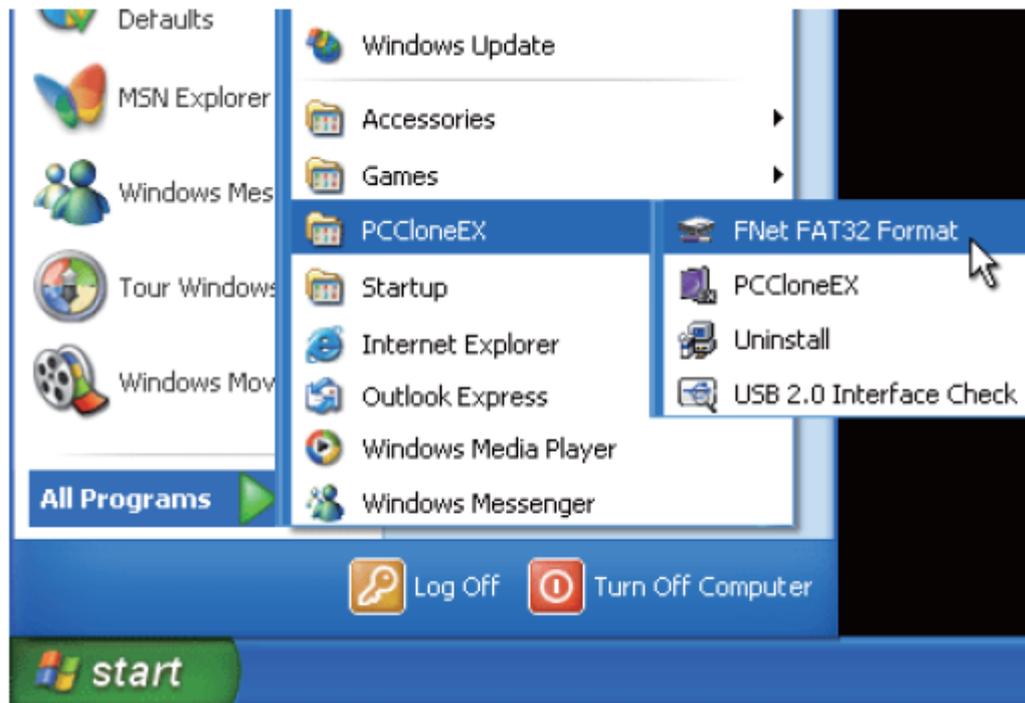

3. Please click “Disk Management” as the left window, and then find the disk management as the right window.
4. Please right click the disk of “Unallocated”, and point the “New Partition”. (In order to make sure the disk of “Unallocated” whether the USB disk uses this area or not, users can find out by removing and plugging the port of USB connection)

5. Follow up the installation of “Partition Wizard” to operate the disk of partition and format

6. Also, you can format USB hard disk by “FNet FAT32 Utility” and then you can start the backup function (The detail format steps please refer to the section of “FNet FAT32 Utility”)

FAT32 Format Utility

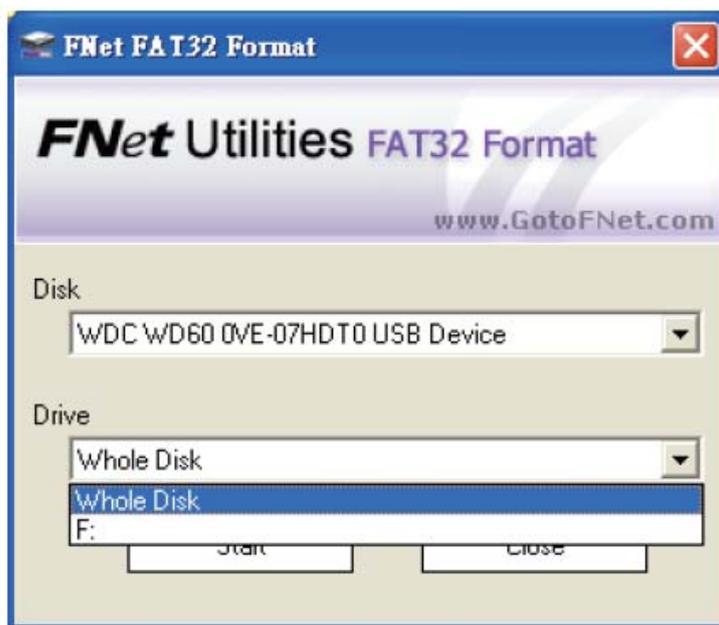

For the current HDD capacity is getting larger, the Fat32 Format Utility in Windows 2000/XP is not able to support the HDD size exceeding 32GB; FNet recommends FNet Fat 32 Format Utility, which can format the large capacity to be FAT32 Format rapidly and fully, the size even maximums up to 4TB (4000GB)

(Attention: all data in USB HDD will be deleted if you use this function)

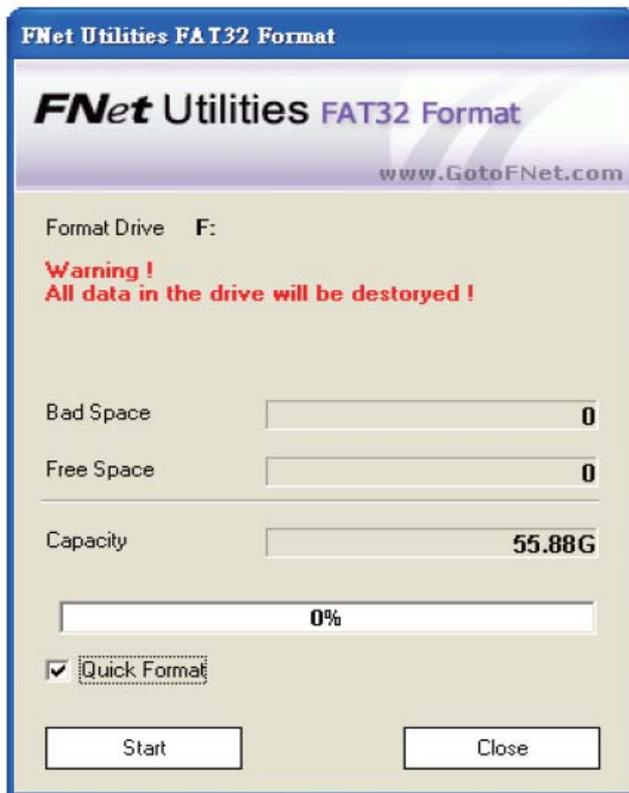

1. Please plug USB HDD, and turn on the computer
2. Click “Start ” → “All Programs” → “PCClone EX” → “FNet FAT32 Format”

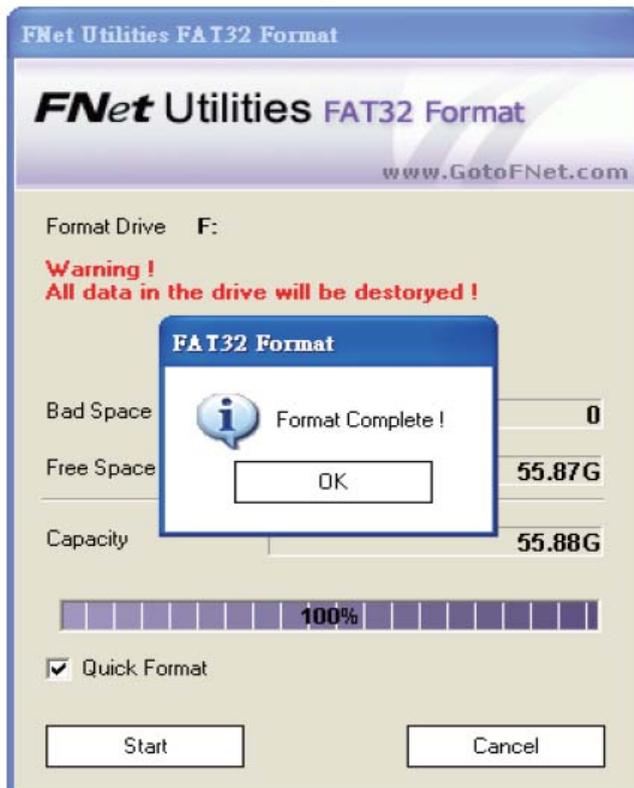

3. Confirm the "USB Device" and "Drive to Format" in the FAT32 Format Utility, and then press "Start"

4. Tick "Quick Format" and click "Start" for executing
(Attention: All data in USB HDD will be deleted if you use this function)

5. The window shows in progress

One Button File Backup

One Button backup function only supports the external HDD case with button design – It won't set comprehensive steps for backup anymore, only use the button of the external HDD case. Note: when you click the button of backup, the icon of PCClone EX Lite must be staying at the notification area. (For first time using, please refer to the context of "File backup" and "Setup")

The USB driver of Win 98SE/ME to the button trigger support has not unified, therefore, this support in Win98SE/ME does not definite exactly, Please refer the original user manual of the computer.
